

ELECTRONICS

Would you like professional coordination and management for the transportation of your valuable electronics? Would you like one reliable source to contact when you need anything or everything handled regarding your electronic equipment at a moments notice, including customized reports?

S&M Moving Systems offers you customizable solutions for professional management of your electronic equipment. Setting the standard in the industry as the complete one-stop for your electronic equipment, S&M Moving Systems can handle all of your locations domestically and internationally.

Whether you're opening new locations, expanding globally, or just need to store your unused electronics, S&M Moving Systems looks forward to exceeding your expectations.

We offer a complete process beginning with a thorough consultation to determine your current and future needs. Next, we implement the best scope of services to match your needs.

S&M Moving Systems provides a qualified workforce available to you 24/7. We load, unload, transport and warehouse your equipment. We also offer contracted customers an expanded range of services including a computerized inventory system compatible for movement of new or existing equipment. Within our scope of services we manage removing and installation of your electronic equipment, even coordinating pre and post delivery clean up and reporting.

SERVICES INCLUDE:

- Extra protection of your valuables
- Expedited claim process
- Ocean forwarding services

Before delivering your electronics, S&M Moving Systems performs extensive sight surveys at both the origin and destination to ensure your questions are answered. We produce reports providing you vital information on transit days, load/delivery dates and times, control tracking numbers, and labor requirements at origin and at destination.

We ensure you know where your shipment is at by regularly updating our tracking systems. Additionally, we conduct pre-delivery conference calls with your coordinators to ensure a smooth delivery.

We know how important it is for you to know the results of your delivery. Our contract customers receive the following information within 2 hours of delivery:

- Overage, shortage and damage reports (OS&D)
- Proof of delivery name
- Customized reports
- Options on times and dates, along with any cost to replace OS&D items

As a full service provider for your equipment, S&M Moving Systems provides services to benefit you including:

- Crating or packing
- Obsolete and old electronic equipment disposal
- Warehousing
- Documentation services
