

# ***SPECIAL COMMODITIES***

Starting in 1918, S&M Moving Systems began as a small general freight and local delivery service. Today, we are one of the nation's largest full service move management and storage companies. We proudly remain family owned while becoming one of the largest agents for United Van Lines. We continue to base our reputation on quality service at a fair price.

Whether your transportation needs require inside pickup and delivery or dock-to-dock service, S&M Moving Systems is ready to exceed your expectations.

We work with you to select options suited for your specific requirements.

We can accommodate any size shipment from a few items to multiple truckloads, providing you damage-free transportation.

Our experienced van operators take pride in safeguarding your shipments. We even offer pad-wrap service to provide your shipments the ultimate in protection.

S&M Moving Systems realizes the importance of time-sensitive transportation. To help you stay on schedule, we utilize the latest in technology, including computerized shipment registration, load planning and satellite tracking to monitor the progress of your shipment from origin to destination.
